peportation Not a Worksbie Suggestion. Says He, at Meeting of the Armstrong Association—Andrew Carnegie Characterizes Taft as Smiling Pacificator

The Armstrong Association of New York, devoted to the uplifting of the negroes in the South, especially by means of schools and colleges, held its annual meeting yesterday at the residence of William Jay Schieffelin, 5 East Sixtysixth street. The main purpose of the organization is to raise about \$100,000 yearly for the support of Hampton College.

Mr. Schieffelin opened the meeting by introducing the Fisk University Jubiles Quartet. The four sang an old negro song and were very well received.

described the work of Armstrong, the founder of the association, and how he had left his money to Hampton College, believing education to be the salvation of the Southern negro. Carnegie said that he was much impressed by the manners of the students in the Southern universities, comparing them favorably with those of Harvard and Wells College. In the course of his speech he spoke of President Taft's influence upon the South, as to the negroes and whites and as to the Southerners and Northerners. He called the Presi dent the "great pacificator; he goes from one place to another and just laughs!"

Dr. J. H. Dillard, president of the Anna T. Jeanes Fund, said in part: Anna T. Jeanes Fund, said in part:

"The way to uplift the negroes is to teach
them their own potentiality, to show
them what they are capable of doing.
Once they get an inkling of their own
ability and discover that they really
amount to something as a race, then
immediately the battle is won.

"As to the great negro problem which
has been worrying people for so long."

mount to something as a race, then immediately the battle is won.

"As to the great negro problem which has been worrying people for so long; it is no problem at all. If ever it was it is rapidly being solved by the negroes themselves. Deport them? By no means. Take them off somewhere within our outlying territories and let them be a nation unto themselves? Not that either. Simply let them segregate themselves in self-sufficient communities the way they are doing now and then the whites and blacks can live not very far apart and be a mutual aid to one another without the actual intermarriage and contamination of the race."

He spoke also of the eagerness with which the colored people respondent to the right kind of help.

Miss Charlotte Thorne, who was formerly connected with Hampton but is now principal of a colored school in Calhoun, Ala., told some very interesting stories of the heroism of the colored men and women who when they had gained their own education refused good salaries with easier work to turn back to their race that they in their turn might aid in the uplifting.

Dr. H. B. Frissell spoke for Hampton itself and said the key note of the association's work in 6 the South, especially as typified at universities like Hampton, Tuskegee and Fisk, was: "Convince the will make himself so." He also testified that it was impossible to cope with the demands made by the negroes themselves for more teachers.

The meeting closed with a negro hillsby from the quartet. Among those present were George F. Peabody, Chester Griswold, Mrs. Arthur Curtis James, Mrs. Clarence Beebe, Mrs. Fillioté Shepard, Mrs. Andrew Carnegie and Mrs. M. S. Woolman.

ROCKEFELLER SAYS "PSHAW!" No Cleveland Plot Against His Life That He knows Of.

John D. Rockefeller got in yesterday morning from Cleveland. He didn't seem to be worrying about the report from Cleveland of a plot against his life.

The train due at 7:55 o'clock at the Grand Central was ten minutes late. Mr. Rockefeller's son and daughter, John Rockefeller, Jr., and Mrs. Harold

McCormick of Chicago and Mr. McCormick were waiting on the platform. In Mr. Rocksfeller's party were only himself and Mrs. Rocksfeller and a nurse.

In reply to questions about the plot Mr. Rocksfeller and a dozen "Pshaws!" Then he added:

"We always come in to New York in October. This year we are late because Mrs. Rocksfeller was not well and we postponed our departure from Cleveland on account of her health. My son can tell you he has known for weeks that we were coming exactly at this time." John D., Jr., corroborated this.

CLEVELAND, Dec. 1.—No "pshaws" were heard at Forest Hill Monday evening when Harold Sawyer Smith revealed to John D. Rockefeller what he had overheard in Alliance Sunday evening about kidnapping and assassination.

Mr. Rockefeller was preparing to attend the dinner of the men's club of the Euclid Avenue Baptist Church. He hastily excused his absence from the banquet and asked Chief Stamberger what was best to do.

quet and asked Chief Stamberger what was best to do.

"Double your guards and keep all lights going all night," was the chief's advice, and it was followed. Even the gardeners were under arms as part of the guard that night, while light streamed from all the windows.

On Tuesday afternoon, on Chief Stamberger's advice, a detective sat beside Mr. Rockefeller in the automobile which bore the party to the East 105th street station to board the train for New York.

Surrogate Thomas says that the question of the competency of the administrator rests with the Chicago court. He fixes Mr. Owsley's bond at \$2,200,000. James Russell Soley, counsel for Mrs. Yerkes, said last night that she would appeal the case at once to the Appellate Division, and if necessary go to the Court of Appeals, so that there is no likelihood that the administration of the local estate will begin right away.

Charles C. Burlingham, who was appointed receiver of the estate in the Federal court action brought by the Underground Electric Railways Company, Ltd., of London, in a suit to recover \$800,000, is still in charge, and guards representing him are stationed in the Yerkes residence.

He was appointed United States Consul at Havre, France, signed when Cleveland was elected Presi

dent

He was appointed as Consul-General at Manila by President McKinley in 1897 and was at this post when war was declared with Spain. He withdrew to Hongkong, where he joined Admiral Dewey's fleet and accompanied the Admiral back to Manila. He had obtained valuable information as to the condition of the Spanish fortification and ships and he stood on the bridge of the Olympia as the Admiral sailed into the harbor of Manila on May I, 1898.

After the close of the war he was appointed Consul-General at Singapore, in the Malayan peninsula, when that port was an important diplomatic point in the days following the American occupation of the Philippines, as it was a centre of the Filipino insurgents. He had been living in Rochester for the last six years and had been in poor health for some time.

OBITUARY.

Brig.-Gen. Thomas McCurdy Vincent, retired, is dead at his home in Washington, following an illness which began last August. Funeral service will be held to-morrow at St. Matthew's Roman Catholic Church and the interment will be made in Arlington. Gen. Vincent was 77 years old and had seen forty years of fighting. He was born in Ohio, entered West Point in 1849 at the age of 17, and after graduation went into service in the Second Artillery, which was then fighting the Seminole Indians. Gen. Vincent won recognition as an organizer during the civil war and served on the staff of Gen. McDoweil and in the Adjutant-General's office at Washington. At the close of that war he had much to do with the mustering out of the troops and was sent afterward to Texas. In 1888 Gen. Vincent went to Washington again as Assistant Adjutant-General. In 1895 he was placed in charge of the bureau of information of the War Department when a Colonel. In 1896, after forty-three years of service, he was retired, and in 1904 was made a Brigadier-General on the retired list. He was the author of several books and monographs on military subjects.

Robert Remington Doherty, one of the editors of the Sunday school publications of the Methodist Episcopal Church, died of pneumonia yesterday afternoon at his home, 44 Kensington avenue, Jersey City, in his sixty-second year. Mr. Doherty conducted a department in the Suaday School Journal. He was one of the founders of the Epworth League and was one of its first general vice-presidents. He was formerly assistant editor of the Christien Advocate and his name was well known in thousands of families throughout the United States. He lived in Jersey City nearly thirty-six years and was a member of the official board of the Emory Methodist Church, at Bergen and Beimont avenues. Mr. Doherty is survived by his wife and one daughter. Brig.-Gen. Thomas McCurdy Vincent,

NEGRO BURNED AT STAKE.

He Was a Preacher and Had Shot a Man -- Whites Didn't Like His Sermous. HAWKINSVILLE, Gat., Dec. 1 .- The Rev ohn Howard, a negro, was burned at the stake to-night by a mob about midway between here and Cochran.

Howard this afternoon shot and mortally wounded W. D. Booth, one of the wealthiest men in this region.

Howard had a business transaction with Booth. There was a disagreement and the negro drew a pistol and shot him

twice.

Howard fled but was soon pursued by parties in automobiles. After three hours he was captured and the cry of "Lynch him!" was raised.

him!" was raised.

There were probably 300 white men in the posse and they voted unanimously to burn the preacher.

Howard was taken to the scene of the crime, bound to a stake and fagots piled about him. All this time Howard was praying and singing hymns. Even when the fagots were fired the negro continued to sing and pray, but when the flames began to scorch him he called down curses on the men who were torturing him.

that more merciful members of the mob suded his misery with a volley of bullets. The fire was kept going until Howard's body was entirely consumed. The feeling against Howard was not wholly due to the fact that he shot Booth. The negro was eloquent and had great influence with his race, and it is said he

continually used this power to stir up trouble between the races. It is charged that nearly all his sermons were trades against the white people for the alleged wrongs they inflicted on the negroes.

There was a wedding on Tuesday night at Acme Hall. Seventh avenue and Ninth street. A carriage from the Berkeley stables, at 409 Fifth avenue, left some guests at the Acme at about 9 o'clock and started down Ninth street for the stables with instructions to return at 3:30. Near the corner of Sixth avenue the clang of a Smith street trolley car gong coming along behind caused the driver of the carriage to pull off from the trolley track to the north side of the street.

The horses were trotting along at a lively clip when the near one of the span of grays suddenly dropped out of sight, the off horse stumbled and the carriage came near going end for end. The driver climbed down and saw the forequarters of the missing horse just about on the level of the pavement. The horse died shortly after dropping into the hole, probably of a broken back. The driver, assisted by the crews of Smith street trolley cars bound for Manhattan, pulled the harness from the horse in the hole and went to the stable with the other horse and the carriage.

The wedged in horse's head lay across one rail of the trolley track and it had to be lifted and bent out of the way as each car passed. Word was sent for a wrecking car, but the crew didn't get the horse out. The fire company in Eleventh street was called, but they said it wasn't a fire and went back to the engine house. The body of the horse was extricated yesterday afternoon.

The hole into which the horse fell is one of a series cut through from the south side of the street so that workmen could tunnel from one to another under the trolley tracks and put in a connection from the water main to a row of buildings in course of erection. It is about four feet long, twenty inches wide and a little more than five feet deep.

The driver of the carriage says that there was no red lantern at the hole. The contractors for the building say that they put one there and that it must have gone out or been carried away by mischievous youngsters. The horse was worth about \$150, says Mr. Dowd, the pro
